Learner's Testimonial

When we reached there, they were overwhelmed and I could see the happiness in their eyes. They looked happy, but still we can feel their pain of not being able to live with their dear ones. The home usually has a care taker who monitors the residents of the home and a few helpers to take care of the residents. A visit to an old-age home is a life-changing experience as it is filled with emotions and sentiments. I had an opportunity to visit an old-age home with my college friends and faculty member for a local NGO.

The visit to the old-age home was a fulfilling experience for me as I came back home with not only memories but also some valuable lessons. When I reached home, I ran straight to my mother and hugged her tight saying that I would never abandon her or my father when they grew old. She held me tight with teary eyes.

Nihar Mehata (2018-19)

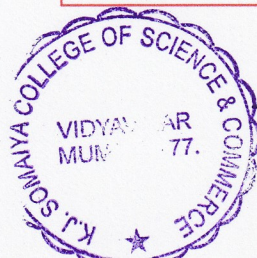

When we entered the home, we were taken by surprise as there was more number of people than we had imagined. There was a common room where elderly men and women ranging from the ages of 60 till late 80s were seen. Some of them were busy in watching the television, some were chatting, some ladies were busy knitting and others were staring at us. We had brought with us food which we distributed amongst the members. They were ecstatic to have food from outside. We segregated ourselves and went to talk individually to everyone.

There we learnt more about true life sharing and caring we spoke to them shared our love. They shared their stories with us.

Tanu Karmokar(2019-20)

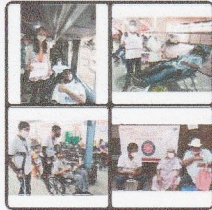

When we reached, At the entrance there's one beautiful door, which had an italic font "Good vibes only". Since, sticking to Covid-19 norms there were only 2 students were allowed. When they entered they saw there were total 9 experienced precious beings, Some of them were sleeping, some of them were watching Television, Some of them were just sitting. One of the Aaji had shared a life lesson & she wanted us to remember that for a lifetime "Life is precious, Enjoy every moment, Be happy in the present & make your parents proud". Then, We all enjoyed, cried, talked, Starred, Sang & at the end felt grateful. Though, the moment was filled with full of tears, but it was not a representation of sadness. It was tears of happiness & gratefulness. At the end, we gave the ladoos & woollen mufflers to the aaji's & around 1:00 pm we left the place with a heavy heart & teary eyes.

Responsibilities towards self Responsibilities

My Name Omkar Shantaram Sagavekar NSS Boy leader for year 2020-21 There was a lot of experience I have in NSS but the activities which I do with my junior volunteers was really near to my heart. I am very very happy & feeling proud to be NSS volunteer of our college's NSS Unit. NSS gives me everything which I want. NSS

develop My **Leadership qualities, Communication with society and many more**. Blood donation camp at Bhandup is my first field activity which was organised by our unit in collaboration with Rajawadi Hospital I was quite nervous because after a long time gap that was our first field activity. Management of that activity was challenge for me but our programme officer Mr. Amit More sir RRC Head Ms. Amisha Kaswankar my Leaders Robinsh & Hamsika gave me lot of confidence and only because of them I was able to manage successfully. After this activity my **confidence gets quite high** and I can able to manage 2 more camps blood donation camp at Thane & Dharavi. I donated blood in the blood donation camp organized at Thane. I'm really grateful that I was a part of vaccination drive. In this hard times of COVID, I got an opportunity to become a part of vaccination drive which gave me **immense happiness and satisfaction** that I helped a lot of people.

I really thankful to all my volunteers, juniors, my teachers programme officers & principal maam to give me opportunity to lead all the activities during this year.

Not me but you. This NSS motto itself inspires millions of nss volunteers to work for the social cause and being♥

Myself YASIR KHAN , Cultural Head of NSS (2020-21). These two years in NSS was worth living, all the activities that we planned and executed taught us many lessons like to always be the **helping hand for those who are in need**, in these difficult days of pandemic we couldn't thought of having so many blood donation camps and activities but with amit more sirs guidance it was possible and we were able to achieve the goals♥

Jai Hind !

I'm really grateful that I was a part of this drive. There are many people with whom we did this drive, and it was really a great success. At the evening after our duties, when I used to go back home, all tired and sweaty but also had a thing in my mind that today **I've served my nation**, in a very little extent but I have helped My people to receive the cure from the disease with which we all humans are fighting since more than a year. JAI HIND!

First of all I want to thank our College, and specially our NSS department for giving me this Opportunity to Serve the Society. In this Pandemic. I literally don't **Communicate or talk to people** frequently, but when I got this Opportunity to help people and Hospital Staff at Rajawadi, I got to learn so many new things Like:- **How to handle someone on wheelchair, how to handle Crowd and many more**. ☺

I mostly help people for seeing there Token no and send them to their Respective Room's, there was a token number Displaying device who always says, the respective no's of the Vaccination room. I am really missing Voice of that Device ☺...at home also I feels that Voice at Background! The Staff of the Hospital was also very Polite, specially the Nurse's over there. and also missing the Lunch Break at their. And the Day when Lolly Mam came for Vaccination ☺ We all where so excited to meet Lolly Mam. I've meet mam, Click pictures with them 😊 And also missing all friends also, nice to meet them, we spend a Great time over there. Want to says **somemany thing!** The It was a **Great Great Experience** ☺☺ Thankyou ☺ Dheeraj Gupta (NSS Volunteer)

Jai Hind! My experience during Blood donation camp

Jai Hind!

Hello,
Talking about my experience during the blood donation camp, I was nervous at first, as this was the first time I volunteered in a blood donation camp but because of proper guidance and support it was a successful activity, it was an amazing experience as I got to interact with the doctors, the staff and the donors during the camp, I learnt a lot about the blood donation process, it's arrangement, the requirements, how to manage and keep records of the whole event. The very important part of this experience was **teamwork** due to which there was smooth conduction of the camp. Though organizing and conducting camp during this Covid-19 pandemic was a bit challenging as social distancing had to be maintained so the noble cause would be conducted in proper safety and good spirits but after the completion of the camp there was a **feeling of satisfaction and joy** as the motive was fulfilled.

Also, I would like to request you all to Donate blood and Save Lives.
Thank You!

My Experience from vaccination drive

Jai Hind

Being a part of vaccination drive has given me an immense pleasure for contributing towards my society. This beautiful journey gave me an **opportunity to express my positive qualities such as being kind, patient, understanding and helping others.** I am grateful to KJ somaiya college and NSS team for organizing this drive and letting me be a part of it. I got to know about how the system works. The work of Dr., nurses, vaccinators and other helpers was commendable. I always wanted to contribute for my society which was fulfilled by this drive. In this lockdown period it was a change much needed for me. I felt satisfied. Also in that phase I got opportunity to meet my professor Mrs. Hemlata Chakraborty ma'am.

Thank you
Kaveri Dubey

... knowledge about how vaccination drive all around nation will be conducted. I am very grateful and thankful to NSS team that they gave me this opportunity and made me part of this. I also thought that government hospitals did not have disciplined environment but after this drive my thought towards that totally changed. **Dealing with some of the senior citizens was to be honest not easy but some of them were very cooperative.** For me this was fully a new experience and would love to gain such new experiences.

Thankyou

Jai Hind!!

I am very much happy as being in NSS as a volunteer was a great experience for me. In this Covid-19 times we all faced a lots of problems but by volunteering the blood donation camp and Vaccination drive I felt atleast I could help some people. Also it created a **good vibe** for me. I would be pleased to do such great works and help more people. Blessed to be in NSS 🙏.

Thank you,

Jai hind,

I had a marvelous time volunteering with NSS unit. At this very calamitous time of pandemic, I enjoyed all the activities we participated into. Blood donation drive, vaccination drive and etc all were really great. I especially loved volunteering at vaccination center. **Helping all those old people, gave me such a peace of mind.** Encountering with all those people was great. I learned a lot. I got to **improve my social skills** and I feel very **confident** now. I am extremely thankful for having all of these experiences. I am extremely pleased that I got this opportunity.

Thank you,
Prathamesh Pol. (NSS Volunteer)

social work and people have false notion about social work people often relate it with politics but its really not the case, During this pandemic where world is affected by virus I played a short but a crucial role by organising blood donation drives also I headed the vaccination drive at Rajawadi hospital. Actually i didn't got any inspiration as such but yeah the only thought came in my mind was i had two choices whether to stay at home taking care of myself and other was helping people and obviously i chose the second one and without giving a thought i started working, i quickly contacted my sources and organised a blood donation camp in kalwa with the help of local politician and successfully held it also i played a important role in blood donation drive at mulund, the situation in which we worked was so bad that there was shortage of blood all over Maharashtra and **i am happy** that i contributed to that. Also playing a lead role in vaccination drive too was a difficult task tbh, their was rush also people were frustrated standing in long queues so controlling that situation was a **Challenging task** also we helped the hospital staff in administration work like keeping records of number od persons to be vaccinated etc. Also i would like to share my personal experience of things happened in hospital, there was a deaf old man of 75 years and he wasn't able to understand things so it was my task to guide him in this process and at the end he gave me a Thanksgiving card which i think made my day and i **felt totally blessed**. So it was overall a wonderful journey not all things are meant for fame we should always do things which we like and for which we a passionate about also i would like to give credit to my parents too for letting me explore this wonderful experience and supporting me. Also i would like to give special acknowledgment to our PO Amit more sir and leader's who gave me opportunity to lead and explained me the functioning of work he has be very kind to us and i would like to thank them once again for giving me the opportunity to showcase my actual talent and hopefully i would like working with them in future too.
